

Conference Fees

Conference fees include the proceedings, coffee breaks and lunches during the conference as well as welcome reception and conference banquet.

	Early bird (until March 1, 2012)	Regular fee
IWA member	EUR 480	EUR 600
Non-member	EUR 600	EUR 720

For participants from lower income countries (according to IWA list) discounts have been arranged by the organising committee. The low income country fees are:

IWA member	EUR 396	EUR 480
Non-member	EUR 516	EUR 600

The Accompanying Person Fee of EUR 150 includes access to the opening ceremonies, the welcome reception and the conference banquet.

All prices include VAT:

An 'Early Career Water Loss Symposium' will be held at Ferrara University to serve as an opportunity for students (and those recently graduated) to engage with their peers, to foster contacts and to participate in an important developmental exercise of presenting their work and encourage their interest in the subject.

A special fund will cover the participation cost for the best abstracts "under 32 years old" presenters (selected by the scientific committee). More info will be available soon in the waterlosseurope.com web site

 **Language:** English is the official language of the conference. Translation to Italian is provided for the technical sessions only. Interpretation services are provided by the Organisers of the Conference.

WaterLossEurope2012
Ferrara, Italy may 23-25 2012

The Specialist Water Loss Conference

The European Regional event of the

Hosted jointly by

in cooperation with

Ferrara, Italy 23-25 may 2012
11th International Exhibition

of technologies for the treatment and distribution
of drinking water and wastewater treatment.

The Specialist Water Loss Conference !

Aim of the Conference

Water Loss Europe 2012 is intended to present and discuss the latest developments, strategies, techniques and applications of international best practices in **Non-Revenue Water Management**.

The Conference is the first regional event following a series of successful IWA water loss reduction speciality conferences, like "Water Loss 2010" that was held in Sao Paulo, Brazil in June 2010 with **630 participants from more than 30 different countries** from around the world.

Water Loss Europe 2012 was brought to Europe to address the pressing need for improved water utility efficiency in this part of the world.

Programme Outline

Wednesday 23 May 2012

(University of Ferrara)

- . Opening Ceremony
- . Technical Sessions
- . Conference Banquet

Thursday 24 May 2012

(H2O international Exhibition)

- . Technical Sessions
- . Workshops

Friday 25 May 2012

(H2O international Exhibition)

- . Technical Sessions
- . Workshops

Exhibition

The conference will host a specialised trade show that will provide an ideal opportunity for companies to promote their services and products relating to all aspects of water loss management.

Book your booth early – space is limited!

Call for Papers

Authors are invited to present papers dealing with any water loss related topics. The aim is to provide a comprehensive programme of the highest quality, reflecting a wide range of international experiences. You are invited to submit an extended abstract, in English, of up to 800 words including figures, diagrams or illustrations, in Microsoft Word format. Please headline your text with the following information:

- Topic
- Title of presentation
- Authors names and affiliations
- Three key words (to help with easy identification)
- Contact person's name, email, postal address and telephone

Selected papers from the conference proceedings will be published in the Journal Water Science and Technology: Water Supply, after a peer review process.

Abstracts must be received by **November 30, 2011**

at the following e-mail address:

committee@waterlosseurope.com

Social Programme

Conference Banquet

The official conference banquet will take place on Wednesday evening, it will be an unbeatable experience to enjoy true Italian hospitality.

Post-Conference Tour

A post conference tour will be organised to enable you to enjoy the Italian cultural beauties and to spend some leisure time with colleagues from around the world.

An unforgettable networking event!

Companion Tours

On all three days of the conference guided tours will be offered to ensure that all accompanying guests will have the opportunity to explore the beautiful Renaissance city of Ferrara and main tourist sites in the surroundings.

Ferrara, Italy 23-25 May 2012

11th International Exhibition

of technologies for the treatment and distribution of drinking water and wastewater treatment.

ACCADUEO is the International Exhibition of technologies for the treatment and distribution of drinking water and wastewater treatment, which in 2012 will present its 11th edition.

Over time, the show has gradually achieved international status to the point of now being among the main international events in the sector owing to:

- the importance of the subjects discussed within the conference programme
- the significance and prestige of the businesses attending both as exhibitors and visitors
- the completeness of the exhibit offer that focuses entirely on the sectors represented at the show.

Edition after edition, ACCADUEO has increasingly become a time for exhibiting businesses to meet with public and private entrepreneurship with growing attention for technological innovation, which this year will feature a dedicated project. The show will offer a calendar full of conferences and technical seminars hosting international speakers, thus making it an opportunity for comparison and expert updating for business operators.

università di ferrara

DA SEICENTO ANNI GUARDIAMO AVANTI.

The University of Ferrara is one of the oldest in Italy. It was founded in 1391 by Alberto V, Marquis of Este, and granted by Pope Boniface IX. The earliest courses were in the arts, theology and law and from the very beginning it attracted well-known teachers. There are currently eight faculties and Engineering is one of the youngest.

It was initiated in the early 1990's and is located in the new Technical and Scientific Centre of Ferrara University: it offers the perfect study environment and the chances of employment after graduation are particularly high for all its courses.
